Dear Mr. Ireland:

Re: Water Right Permits G2-28692 (Cut-Off Road Water System),
and G2-28753 (Spyglass Water System)

As we discussed on Tuesday, I am returning the two \$8.00 checks made payable to the Pierce County Auditor. We erred in requesting the certificate fees when we did.

For your information, effective immediately the Department of Ecology, Water Resources will not proceed to issue Water Right Certificates for any public water supply permits where all houses are not being served. The final certificate will be issued when the right has been completely "perfected", and you can demonstrate by meter readings and use data that the quantity of water allocated by the permit has been put to full beneficial use.

We have retained the \$5.00 checks, made payable to the Department of Ecology, to cover the cost of a one-year construction extension. Accordingly, both permits are in good standing until January 1, 1996. If at that time, Harbor Water is unable to put the water to full beneficial use, you may request an additional extension.

We apologize for the confusion, feel free to contact me at (206) 407-0274 if you have questions or concerns.

Sincerely,

Jill Van Hulle
